

Riverside Community Health Foundation Stebler Fund 2025 Grant Opportunity

Questions & Answers

1. Does equipment fall in the capital bucket [of RCHF's Funding Restrictions listed on page 3 of the Proposal Guidelines]?

Equipment does not fall in the capital funding category of RCHF's Funding Restrictions. The applicant organization may request equipment provided that the proposed project fulfills the priorities for this funding opportunity.

2. Our organization is in Palm Springs, in the Coachella Valley, providing social services, including mental health counseling. We would like to know if we can apply for this grant based on our location.

The Fred and Eva Stebler Trust fund carries the following restrictions: funds must be used for the treatment and care of low-income and indigent minor children who are residents of the County of Riverside who are not otherwise qualified or eligible to receive treatment and care of the County of Riverside and/or the State of California. For this funding opportunity, RCHF is seeking grant proposals that are consistent with our identified mission and vision, and that increase access to needed health care treatment for minors under the age of 18 residing in Riverside County.

If your organization's project serves minors under the age of 18 residing in Riverside County as described above, you may apply for this funding opportunity. Conversely, if your organization is located in Riverside County but does *not* serve minors under the age of 18 residing in Riverside County, you will be ineligible for this funding opportunity.

3. Is SSI considered care by the State of California? This question is in reference to the sentence in the RFP: *"funds must be used for the treatment and care of low-income and indigent minor children who are residents of the County of Riverside who are not otherwise qualified or eligible to receive treatment and care of the County of Riverside and/or the State of California."* Many of the children we serve receive SSI. Are we still eligible to apply for the grant?

The SSI Program (Supplemental Security Income) provides monthly payments to people with disabilities and older adults who have little or no income or resources. SSI is not considered as treatment or care; therefore, your organization would be eligible to apply for this funding opportunity.
